

International Conference on Extracorporeal Organ Support

04. - 06. May

TO OUR COMMUNITY...

ICEOS 2023

The International Conference on Extracorporeal Organ Support provides a comprehensive review of advances in clinical care, research and technology in critical care medicine not only with a focus on the kidney and continuous renal replacement therapies but also in other extracorporeal organ support techniques. The conference is designed to facilitate interdisciplinary interactions among physicians involved in the management of patients in intensive care units and dialysis units. This year's congress was attended by more than 50 lecturers from Croatia, Southeast Europe and the whole world. More than 300 participants, the presence of domestic and international pharmaceutical companies attended ICEOS 2023 in Zagreb.
